Can you create a poster to help people stay safe on the internet? It must be colourful and include

S – Stay safe. Keep your personal information hidden.

M – Don't meet up.

A – Accepting files from people you don't know is unsafe.

R – Reliable. Is the website or person telling the truth?

T – Tell someone.

Think about all the things that we have learnt about internet safety previously- what do we need to remember when using the internet.
