

Monday 18th May PSHE: How can we solve this problem?

Key word for this lesson:

Compromise: (verb/action) to consider or think about the opinions of people on both sides of an argument and come to an agreement that both can accept.

Example:

Billy wanted to go to the cinema on Saturday, his brother Sam wanted to go to stay at home and play a game. The brothers decide to do both, spending the same amount of time on both activities.

Think about how you would solve each problem. Then write a few sentences for each. Think about the values and qualities we have previously learnt.

A brother and sister are playing football in the back garden. The brother kicks the ball over the fence into the neighbour's garden. It is the sister's ball. He says he won't go and get it because the neighbour always shouts	<hr/> <hr/> <hr/> <hr/>
Amir and Jayden both want to be the captain of the football team at lunch time	<hr/> <hr/> <hr/> <hr/>

Some situations lead to arguments, what can we do to avoid them?

If I argue with someone, I should....
