## Key word for this lesson:

**Compromise**: (verb/action) to consider or think about the opinions of people on both sides of an argument and come to an agreement that both can accept.

Example:

Billy wanted to  $g\sigma$  to the cinema on Saturday, his brother Sam wanted to  $g\sigma$  to stay at home and play a game. The brothers decide to do both, spending the same amount of time on both activities.

Think about how you would solve each problem. Then write a few sentences for each. Think about the values and qualities we have previously learnt.

A brother and sister are playing football in the back	
garden. The brother kicks the	
ball over the fence into the	
neighbour's garden. It is the	
sister's ball. He says he won't go and get it because the	
neighbour always shouts	
Amir and Jayden both want to be the captain of the	
football team at lunch time	
]	

Some situations lead to arguments, what can we do to avoid them?

If I argue with someone, I should....
