

Human and Physical Geographical Features

Human Geographical Features	Physical Geographical Features
These are manmade (made by humans) eg: bridges, roads, buildings, farms	These are natural or happen naturally eg: land, water within a land, soil

1) Go to <https://wordwall.net/resource/58780/geography/physical-or-human-geography>

Sort the human and physical geographical features.

2) Look at the pictures on the next two pages. These are from the book 'Window' by Jeannie Baker.

For each picture identify the human and physical features.

Write these down as a list or in a table like above.

3) The pictures show the view through the same window, approximately twenty years apart.

Answer these questions:

a) How have the human and physical features changed?

b) Why do you think they changed? Did these changes need to happen?
