

Friday 17th April

Task 1

Design and Technology

Can you remember what a circuit needs to work?

Watch: <https://www.bbc.co.uk/bitesize/clips/zxrb4wx>

You are going to design your own game that will use an electrical circuit. Can you think of any board games that you have played that have an electrical circuit in them?

Draw your own board game and then answer the following questions.

What are the rules?

What does the game look like?

What do the electronics do?/How does the circuit play a part in the game?
