

Thursday 23rd April

Geography

Have a look through the book called 'Window' by Jeannie Baker on the link below

<https://www.slideshare.net/MrsJuteau/windows-2992791>

Think about, discuss or write the answers to the following questions in a paragraph.

Why doesn't the book have words? It is still effective? How can you tell what is happening in the story?

Analyse each page of the book. What is changing each time? Who are the characters?

What physical (natural) changes can you see? What human changes can you see? List some of them.

Why do you think human changes need to happen? For example, why are roads built, more houses built etc.?

Go through the PowerPoint and look at how Derby has changed overtime. Can you find some other photos online of how Derby used to be? Maybe you can find some old maps online and compare that with google maps/earth of today. Write a paragraph to say what you have found. Was anything surprising? Is there anything that has been in Derby for a long period of time?

Here are some links to get you started:
