

Tuesday 19th May – History Task

What would life be like without electricity?

What do you do for fun at home? Maybe watch television, listen to music?

Look at the power point to compare what life would have been like during the Victorian era.

Task

Describe a morning routine thinking about how we use electricity.

Example

I wake up at 7.30 when my alarm beeps. I switch on my light and turn the radio on. I clean my teeth with my electric toothbrush. Then I go downstairs and take cold milk from the fridge for my cereal etc.

Underline all of the items that use electricity. How many did you use throughout the day?
