The video has 4 main parts that we are going to think about in more detail.

Write notes on the 4 main parts and answer these questions:

Who are the characters?

What story is being told in the video?

What is happening in the 4 main parts of the video?

Memories can be sad and happy and we are going to try to relate feelings to parts of the video.

Have a think about the memories that the pianist thinks about. Why does the pianist remember them specifically?

Do you think the mood of the video is happy or sad? Why?

How does this make you feel?

Have a go at writing your own diary as if you were the pianist remembering all of these events.

Remember the year 5/6 expectations!
