

Hotel Chill is a unique place to stay- unique in both design *and* in time, because it is different every single year! We rebuild our hotel every winter, so it is never quite the same.

A frozen palace

In Hotel Chill, the sparkling chandeliers are made out of ice, all the furniture is beautifully crafted out of ice and even the glasses you drink from will be made out of ice. Yet do not fear the cold! Enter into the chilly and majestic beauty of Hotel Chill and you will be given a royal welcome full of Scandinavian warmth. The glittering bedrooms have ice walls that, like every wall in the hotel, are one metre thick to keep out the Arctic winds. Wrapped in high-tech, lightweight cosy bedding, you will sleep snug after adventures out on the sleds with the huskies or an evening watching the mysterious northern lights.

A paradise for the Ice Queen

This is the real winter wonderland. Two hundred metres north of the Arctic Circle, the unspoilt wilderness and frozen lakes will take away your breath and your worries.

To crown the whole experience, your stay can include:

- Dog-sledding with our gorgeous huskies
- Snowmobile tours across the wild and wonderful snowy landscapes
- Ice-sculpting workshops with our talented hotel artists
- Watching the magical dance of aurora borealis in our northern skies.
