

Thursday 28th May

PE with Joe – <https://www.youtube.com/user/thebodycoach1>

Speed sound session –

The children are very familiar with the RWI routines. Play the video for your set and you will see, they know what to do!

Set 1 - https://www.youtube.com/channel/UCo7fbLgY2oA_cFCI9GdxtQ

Set 2 – igh - <https://youtu.be/yFOvdL5DYWQ>

Set 3 – ure - https://www.youtube.com/watch?v=gm-nVwf9_18

Maths

Have a go at completing the maths sheet – **See below**

Reading

Read one of your favourite books to you parent/carer. If you have ran out of books, log on to your myon.co.uk and find a book from there!

English

Use the pixie shapes to measure how many pixies your family are. Then fill in the table and write a sentence about the results. - **See Talk for Writing Booklet**

Story time – Where the wild things are

<https://youtu.be/UVO1SRZaVFg>

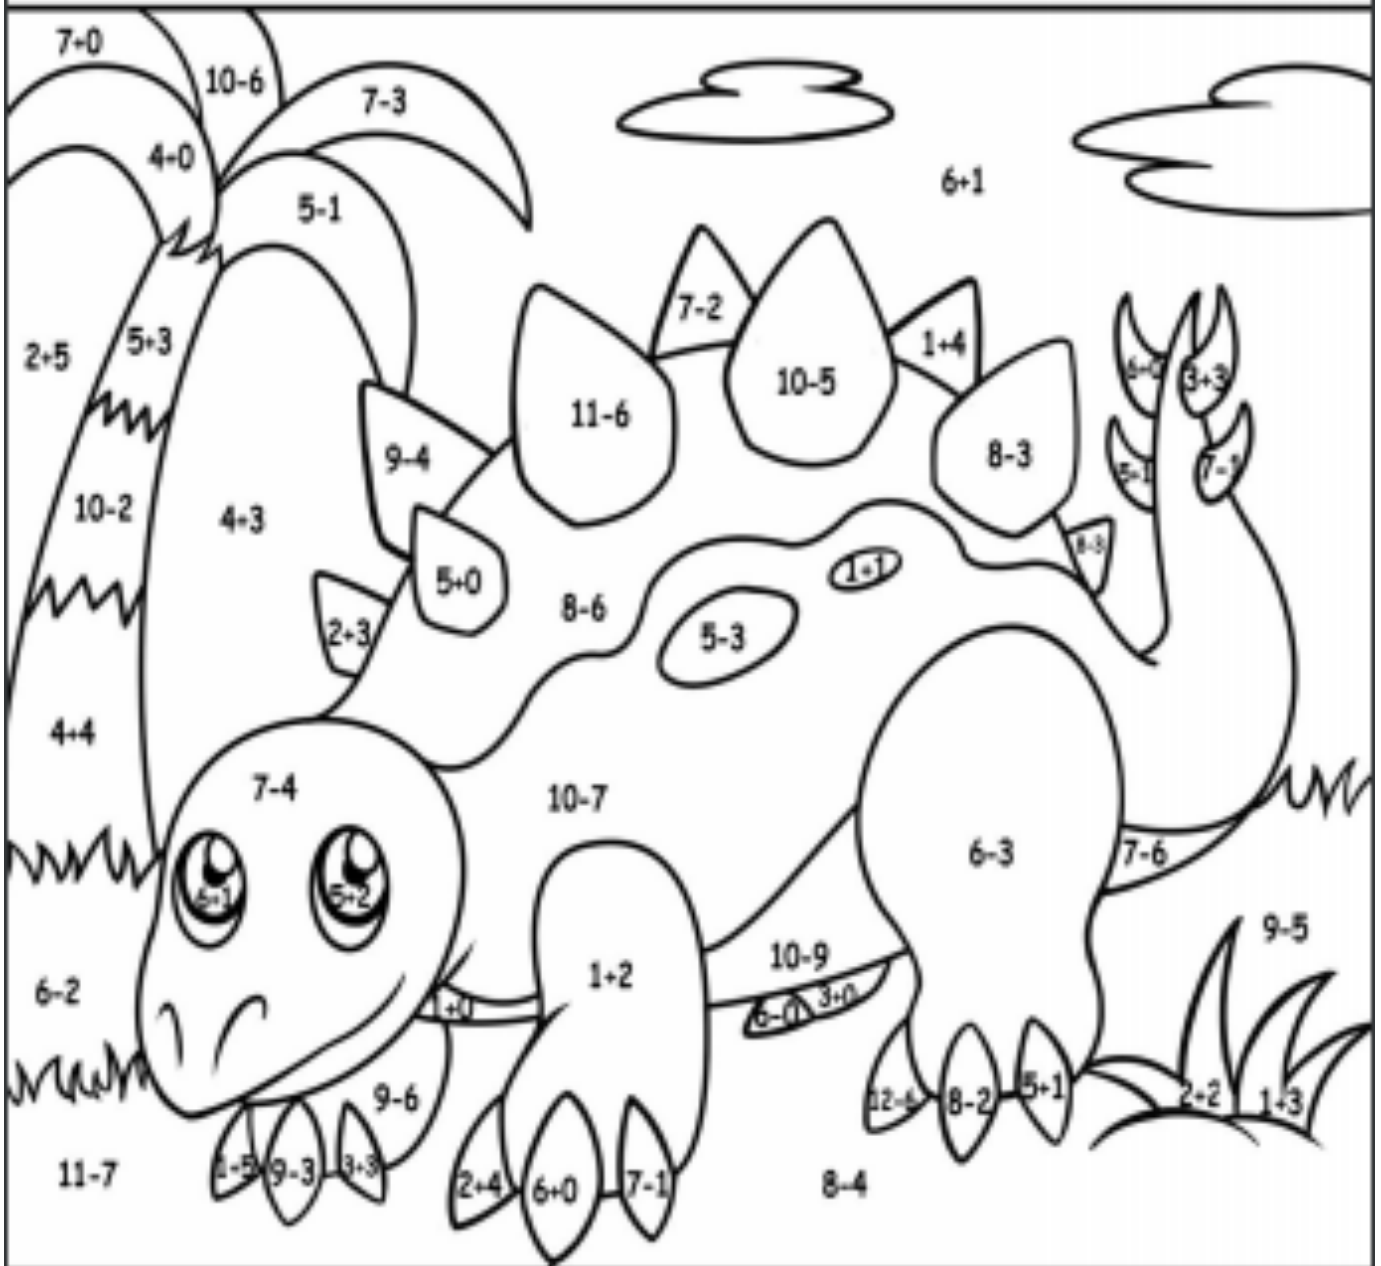

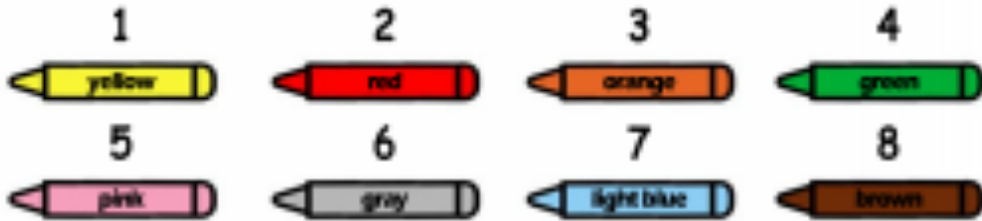

Topic: History

Have a look through the PowerPoint about Mary Anning and then have a go at the quiz to see how much you have learnt this term. See if you can answer the extra questions. – **See below**

History

Mary Anning's Life

Mary and her family had little money, so Mary and her brother Joseph would take the fossils they had removed from the rocks and sell them for a penny each on a stall in the street near where they lived.

Can you buy a lot of things for 1p?

Mary Anning's Life

One day a lady called Elizabeth Philpot, who was a fossil expert, saw Mary's fossils and was very interested in them. She showed Mary some fossils she had collected and gave her books to read.

Would you buy a funny rock from someone? Do you dress like Elizabeth?

Mary Anning's Life

Mary's father had a fall from one of the cliffs and became very ill. Sadly, he died when Mary was 12 years old. With no mother or father to look after them, Mary and her brother were now even poorer.

Do you live on your own?

Mary visited the beach every day, looking for fossils to sell. Knowing that the scientists thought these were creatures that had lived millions of years ago made Mary feel very excited. This meant that the world was millions of years old!

Have you ever discovered something so old?

Mary Anning's Life

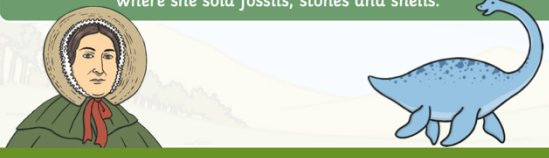

Scientists from London were amazed by the discovery. Mary was paid for the fossil and her family no longer needed to worry about money.

Some years later, whilst walking along the beach one day, Mary made an amazing discovery. She had found a giant fossil that no one had ever seen before. It was the skull of a giant creature that looked like a crocodile. She had found the first complete fossil of an Ichthyosaurus or 'fish-lizard'.

Would you know where to look for an Ichthyosaurus?

Mary Anning's Life

Mary carried on finding more fossils that the world had never seen before. She found a 'giant sea reptile' or Plesiosaur, a flying reptile and a prehistoric fish. Many were taken to London and put on display in the British Museum. Mary opened a small shop where she sold fossils, stones and shells.

She died in 1847 after becoming ill, but is still remembered as one of the greatest fossil hunters ever to have lived.

Are you as old as Mary? What year were you born in?
