

Feeding the Caterpillars Sharing Sheet

Can you share the leaves equally between the caterpillars? Write the number of leaves in each rectangle.

A horizontal rounded rectangle contains four leaves. Two lines extend downwards from the rectangle to two separate caterpillars. Each caterpillar is positioned behind a rectangular box with a scalloped edge, intended for writing the number of leaves each caterpillar receives.

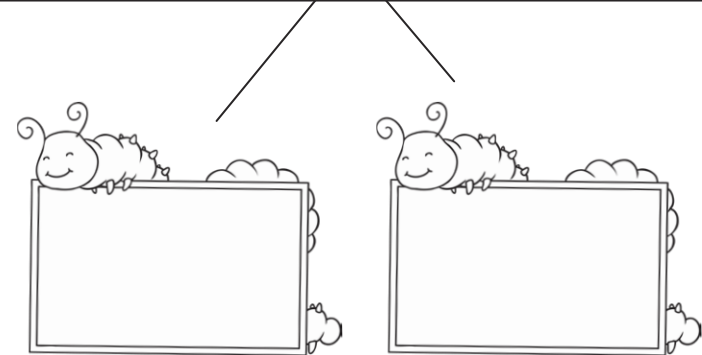

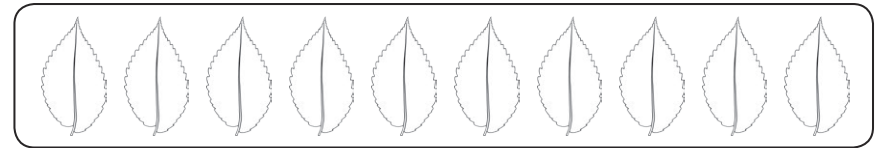

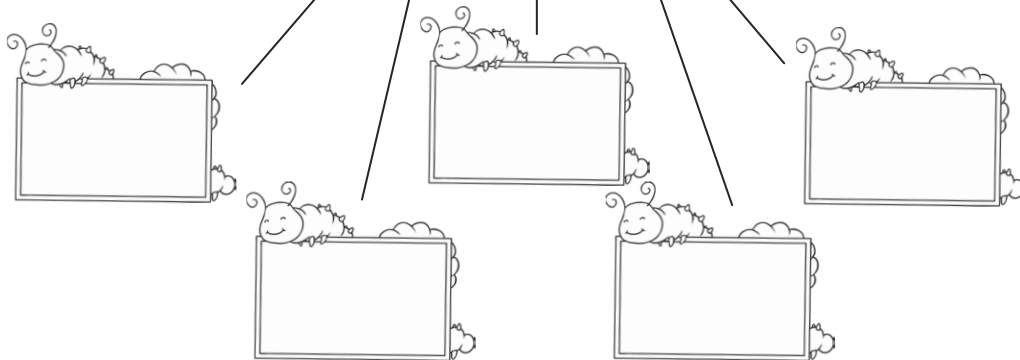

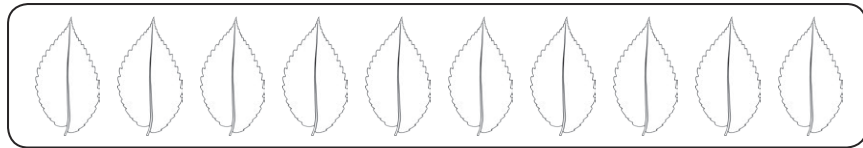

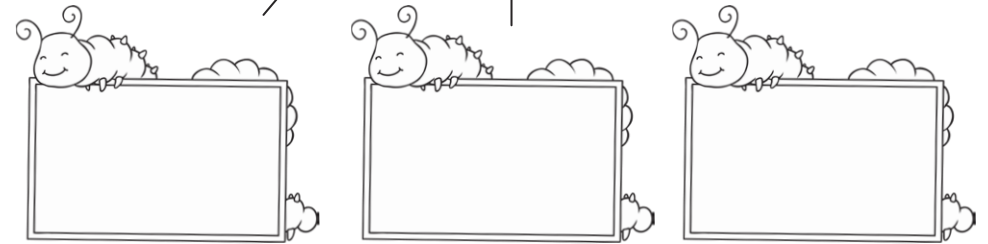

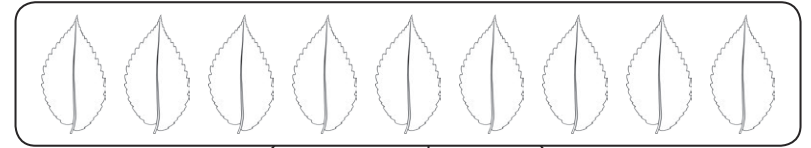

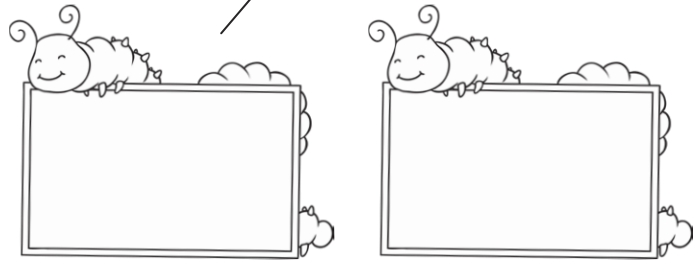

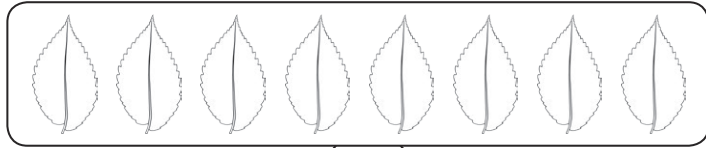

A horizontal rounded rectangle contains six leaves. Three lines extend downwards from the rectangle to three separate caterpillars. Each caterpillar is positioned behind a rectangular box with a scalloped edge, intended for writing the number of leaves each caterpillar receives.

A horizontal rounded rectangle contains six leaves. Two lines extend downwards from the rectangle to two separate caterpillars. Each caterpillar is positioned behind a rectangular box with a scalloped edge, intended for writing the number of leaves each caterpillar receives.

A horizontal rounded rectangle contains eight leaves. Four lines extend downwards from the rectangle to four separate caterpillars. Each caterpillar is positioned behind a rectangular box with a scalloped edge, intended for writing the number of leaves each caterpillar receives.

Feeding the Caterpillars Sharing Sheet

Can you share the leaves equally between the caterpillars? Write the number of leaves in each rectangle.

Feeding the Caterpillars Sharing Sheet

Can you share the leaves equally between the caterpillars? Write the number of leaves in each rectangle.

A horizontal bar at the top contains 12 leaves. Four lines connect this bar to four empty rectangular boxes below. Each box has a caterpillar illustration on top. The caterpillars are arranged in two rows of two.

A horizontal bar at the top contains 12 leaves. Three lines connect this bar to three empty rectangular boxes below. Each box has a caterpillar illustration on top. The caterpillars are arranged in a single row.

A horizontal bar at the top contains 12 leaves. Two lines connect this bar to two empty rectangular boxes below. Each box has a caterpillar illustration on top. The caterpillars are arranged in a single row.

A horizontal bar at the top contains 12 leaves. Six lines connect this bar to six empty rectangular boxes below. Each box has a caterpillar illustration on top. The caterpillars are arranged in two rows of three.
