

# Key Stage 1 Home Learning Challenge

If you could go on a journey somewhere, where would you go?

Write about where you would go and why.

In design & technology, we are making our own finger puppet.

Can you either **design** or **create** your own puppet?

Find out about your favourite superhero and write facts about what their job is.

Can you design an outfit for your superhero to answer?

Think about real superheroes in our community (nurse, doctor, refuse collector). Write or draw about what they do for our community.

In science we are looking at senses.

Go around your house and **draw** or **write** about each of the five senses.

I can see...

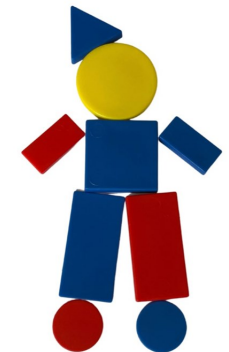

I can feel...

I can hear...

I can smell ....

Create a 2D shape picture using paper shapes.

**Complete 4 activities to get a certificate and a prize at our end of topic celebration.**

**The activities need to be seen by the class teacher by Thursday 7th December.**
