

# Key Stage 1 Home Learning Challenge

If you could be any animal in the world, what would you be?

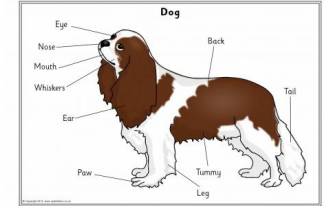

Why?

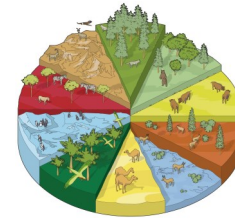

Junk model an animal of your choice, using toilet rolls, egg cups and more!

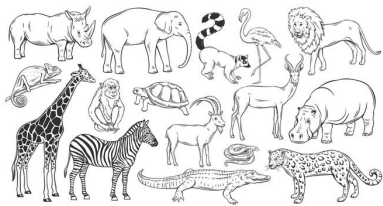

Draw an animal of your choice and label the animals features (wings, snout, paws, whiskers).

Design a habitat for your animal. Think about what they need to survive and the habitat they usually live in.

Thinking about your favourite animal, draw your favourite animal and then write down facts about it.

If you were to throw a dinner party, draw the table that you would have.

What food would you have?

What drinks would you have?

Write about a celebration that you celebrate within your family. It could be a birthday or any religious occasion.

**Complete 4 activities to get a certificate and a prize at our end of topic celebration.**

**The activities need to be seen by the class teacher by Thursday 7th December.**
