

The Scented Garden

Key Stage 1 Home Learning Challenge

Draw your favourite flower and label the features.

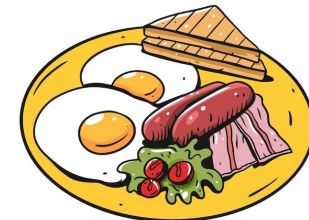

Have a go at making a finger painting at home of your favourite flower.

Over the course of a weekend, can you record your own weather forecast? What is the weather doing each hour?

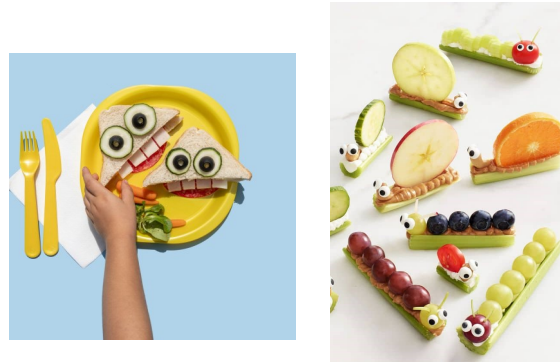

Design your ideal plate of food. Label each of the foods and don't forget what you drink!

For maths this half term we are looking at measuring and capacity. Measure 3 things in your house and see if you can put them in order!

Can you make a healthy snack at home? Maybe a sandwich with a face on, or make an animal out of the snack. Take a picture and send it over Dojo!

Draw something that you take care of (animal, baby, teddy bear). Explain how you look after it.

Complete 4 activities to get a certificate and a prize at our end of topic celebration.

The activities need to be seen by the class teacher by Friday 22nd March.
